

Proof of concept

Project or product name:

IRIS Carbon for ENI Group

The problem:

ENI Group faces challenges in complying with complex and evolving regulatory reporting requirements. The current processes are time-consuming, prone to errors, and require significant manual effort, which can lead to inefficiencies and increased operational costs.

Target audience:

ENI Group's financial and compliance departments. The target market includes large multinational corporations in the oil and gas industry that must adhere to stringent regulatory standards such as ESEF, SEC, and ESG reporting.

Resources needed:

- **Software:** Access to IRIS Carbon platform.
- **Training:** Customized training sessions for ENI Group's team.
- **Support:** Dedicated account manager and round-the-clock support.
- **Integration:** Technical integration with existing financial and compliance systems at ENI Group.

Proof of concept

Success criteria/KPIs:

- **Efficiency:** Reduction in time spent on compliance reporting by 30%.
- **Accuracy:** 99% error-free reports generated.
- **User Satisfaction:** Positive feedback from ENI Group's reporting team.
- **Cost Savings:** Reduction in compliance costs by 20%.

Project scope:

- **Phase 1:** Initial setup and training.
- **Phase 2:** Pilot program with real data and reports.
- **Phase 3:** Full integration and ongoing support.
